

GLOBAL

Diesel engines in construction equipment

JUNE 2020

WHAT DOES IT OFFER?

- Unique study on the 1.1 million annual market for diesel engines in construction equipment
- Coverage of 14 key equipment types
- Market size by key region, equipment type, engine power & emissions compliance level
- Market share by OEM and engine supplier

APPLICATIONS

- Establish engine market sizes by region, equipment type, power band and emissions compliance
- Engine market share analysis
- Competitor analysis
- Identify market opportunities

GLOBAL DIESEL ENGINES IN CONSTRUCTION EQUIPMENT

World renowned specialist consultants Off-Highway Research and Knibb Gormezano Partners (KGP) have collaborated to produce what is believed to be the most detailed study ever on the global market for diesel engines used in construction equipment. The market exceeds 1.1 million units per year, with sales of final equipment totalling more than US\$110 billion.

The study is designed to give engine producers and their suppliers unprecedented insight into the market, through detailed, multi-dimensional analysis. Broken down into six key regions – China, Europe, India, Japan, North America and the rest of the world – each regional section will look at the market for engines in 11 key types of construction equipment.

Within each of these, demand for diesel engines will be analysed in terms of both sales and production

- By OEM
- By engine supplier
- By engine power
- By emissions compliance level

In addition, a global summary will tie together the results of these 66 sections to provide an overview of the worldwide market.

WHY BUY THIS REPORT:

- Understand market size and market shares for diesel engines in unprecedented detail
- Analyse competitors and identify opportunities
- Plan for profitable growth based on reliable data and rigorous analysis

PRICE

€6,500

USD\$7,500

EQUIPMENT COVERAGE

Articulated dump trucks
Asphalt finishers
Backhoe loaders
Compaction equipment (ride-on types only)
Crawler dozers
Crawler excavators
Crawler loaders
Mini excavators
Motor graders
Rigid dump trucks
Rough terrain lift trucks
Skid-steer loaders
Wheeled excavators
Wheeled loaders
